

Template to write a contribution for the EPE ECCE Europe conference

The author's name
THE AUTHOR'S COMPANY
Address
City, Country
Phone: +xx (x) xxx-xxxx
Fax: +xx (x) xxx-xxxx
Email: Author.Name@Company.com
URL: <http://www.company.com>

Acknowledgments

In this little text, which is optional, you may write your acknowledgements. These acknowledgements should directly follow the author's information.

Keywords

«Keyword 1», «Keyword 2», «Keyword 3», «Keyword 4», «Keyword 5» out of official keywords list. Keywords are included using `\EPEkeyword{keyword}`.

Abstract

Here, you are requested to write the abstract of your paper. Main ideas, findings, results and conclusions should be introduced in an attractive way. This abstract should not be more than maximum 20 lines.

Introduction

Here, you start to write the real paper. It consist of an introduction, the body of the text with the different paragraphs, including figures, formulae, tables and eventual images, and of course, the conclusion. The full paper should not exceed 10 pages and needs to be sent to EPE Association as a PDF-file. It also should not exceed 3.0 Megabyte.

Title of the first paragraph

This is where you start to write the extended paper. It consists of sections, subsections and subsubsections. Please use the \LaTeX -commands `\section*`, `\subsection*` and `\subsubsection*` to ensure correct formatting. Don't forget that the full paper should not exceed more than 10 pages and that, as you might have noticed by now, a one column format is requested.

Paragraphs are seperated in \LaTeX using a blank line. The template automatically sets the paragraph indent.

References [1] should be numbered sequentially [2] throughout the text.

Second level paragraph

This is a sub-section.

Third level paragraph

This is a sub-sub-section.

Lists

Lists are supposed to be included using the environment `\begin{EPEitemize}`. This helps setting the according spacings

- This is a bulleted list
- This is another item in this list

Lists can also be numbered using `\begin{EPEenumerate}`:

1. This is a numbered list
2. This is another item in this list

Equations

Equations are numbered sequentially, see (1):

$$E = \int_0^t U \cdot I \cdot \cos \phi \, dt \quad (1)$$

Tables

Tables are preceded by their caption and numbered sequentially with Roman numerals, see Table I.

Table I: Power levels for charging (230 V)

	Current (A)	Power (kW)
Standard	16	3,5
Semi-fast	32	7,0

Figures

Figures are followed by their caption and numbered sequentially with Arabic numerals, see Fig. 1.

Fig. 1: Example of a caption

Conclusion

This is where you write the conclusion of your paper. Subparagraphs, sub-subparagraphs, figures, formulae, tables and eventual images should not appear here
